Harder Than Steel.

Why Brains Grow Old.

By ARTHUR BRISBANE (The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review.)

GIGANTIC corporations, with aur plus profits for laboratory experi-ments, and intelligence to use the profits, are valuable national assets. The General Electric company, for instance, of which Mr. Gerrard Swope is president, announces a new combination of metals named "car boly," so hard that it will cut steel and glass.

"It will cut a screw thread in a glass rod, bore a smooth hole in a block of concrete, handle porcelain on the lathe and cut the hardest

WE HAVE our religious troubles and prejudices here, but they are mild compared with those in Asia. Those Mohammedans of western China killed off, at one time, enough Chinese to build all the canals and roads needed in the United States.

Mohammedans constitute only onethird of the population in Kansu province, but they are savage fighters. Other Mohammedans, Afghans, living in India under British rule, are also good fighters. If the British would let them, they say they would kill twothirds of the Hindus and make slaves of the rest.

Mohammed's energy survives.

NAPOLEON BONAPARTE "opened careers to talent" and consequently an American girl will marry the cousin of a king, Count Folke Bernadotte The original Bernadotte, of humble French parentage, worked his way up Napoleon's army, and Bonaparte made him king of Sweden. Now one of his descendants will make a fine young American girl part of Sweden's well-behaved royalty.

He gave a detailed statement of the work of Konjola, and aso offered his photograph for publication.

"By Helping Nature," said this prominent doctor, "Konjola is far above the older known remedies. I first tried it in a case of kidney trou ble—getting up frequently at night. The man, who took it came back the fourth day and said he had slept all thru the previous night. I learned afterward that he had been doctoring for over ten years for his trouble. I learned of a ma nwho hadn't left his home for over two years. He had been crippled with rheumatism, swollen joints, stiff, aching limbs and agonizing pains. He completed a treatment of Konjola and said he walked a distance of nearly a mile This, of course was about three weeks after he completed Konjola. From this case I believed this medicine would do wonders with neuritis and I recommended it to a lady who said she had tried everything for this suffering. She had tried min-eral baths, electric treatments and medicine upon medicine. It took only five weeks of Konjola to completely end her troubles, and she has never had a return of the neu-

Why the Anchor Hot Blast Saves Fuel and Gives More Heat

home, you want heat first-dependable heat that will keep your home warm all winter regardless of zero weather outside. But you also want this heating at a fair price. You want a heater which will give you the greatest possible amount of heat from your fuel, assuring a cozy, comfortable home. The Anchor Hot Blast saves 1-3 or more in

fuel over any lower-draft or oak air-tight type of heater of the same size; it holds fire for 36 hours, and will save 35% in fuel over any other hot-blast stove on the market. A lifetime of service is guaranteed by the sectional inner linings and the air space which insures uniform radiation from top to bottom of stove body. Coal burned in the ordinary lower draft heater burns at the bottom and all of the gases escaping from the coal on top are lost up

out of your chimney it means that fuel is being

By permitting just the right amount of preheated air to enter the Anchor Hot Blast fire-box through the hot-blast tube, all these gases which otherwise would be lost are completely burned, thereby insuring the fullest heating

By a simple regulation of the main draft damper in the ash-door, the hot-blast slide damper at top, and the check damper located in the reversible smoke collar, the fire is instantly controlled to give just the amount of heat desired. Study this hot-blast system of combination and the design and construction of the Anchor Hot Blast and you will see why it is superior to any other heating stove on the market. In point of looks, service and economy, the

Interest In Zeppelin

As a result of the visit of the U. S. navy's Los Angeles, passing over the city enroute to its home hangar at Lakehurst, N. J., after flying across the country to the American Legion convention at San Antonio, Texas, the super-dirigible, Graf (Count) Zeppelin, which is expected to arrive in America tomorrow afternoon, has

Marking a contrast with the situation four years ago today, when the Los Angeles was sent across the ocean in payment of a war debt, the German nation was thrilled by the Graf Zeppelin's departure. Thus trans-Atlantic passenger service was inaugurated, for the ship car-

Ohio river to Chester and Newell, then hopped to Steubenville and thence to Pittsburgh.

The visit, arranged by Admiral Hughes, head of the navigation bureau of the navy, at the request of Congressman Frank Murphy, of Steubenville, also served to prove the marked attention East Liverpool has paid to aviation since the Chamber of Commerce established its airport in Madison township, for hundreds of men, women and children scan the skies for the huge ship.

Incidentally, the sight of the dirigible soaring over the city's factories and business structures drove home to the onlookers the important part these craft will play in air transportation, in which great strides have been made in the last five years.

Cooper Type For Governor

Columbiana county folks have found Meyers Y. Cooper, the Republican gubernatorial nominee, to be a most human sort of person, with a warm handclasp, a frank which were asked him. Mr. Cooper radiates confidence in himself and his organization.

In recent weeks it has been noticeable that Mr Cooper has attained a strength for greater than was ago-a strength which augurs well for his success at the polls November 6, and which is made up of the united support of substantial citizens of the state who are keen for a business administration at Columbus.

Essentially, Mr. Cooper is a business man. He wanted to be a school teacher, when he was a young man, but engaged in the home-building business instead. And the marked success which he has attained stamps him Immediately as a successful business man.

Mr. Cooper's policies are too well known to need am plification in these columns. Those who know him insecond to none in Ohio's history. And this will be doubly certain if the well-balanced Republican legislative ticket goes into office with Mr. Cooper. A man to accomplish the greatest good must, of necessity, have the united support of the legislative branch. Mr. Cooper, if he is successful in his campaign, should not be handicapped with an anti-administration general assembly.

In recent years Ohio has has experience along this lire-a Republican assembly and Republicans in virtually all the state offices, except the executive office. And Ohio has learned such a combination will not work for the common wealth. Mr. Cooper has the united sup port of the rest of the Republican ticket-and it will be well that this is borne in mind on election day.

After one meets Mr. Cooper the man seems to be come more logically the type one would wish in the governor's office. He bulks large physically and men-applied to war by Addison in his Spectator in 1712. The tally. He impresses the observer as a man not only capable of conducting the state's business in a businesslike manner, but capable of bringing about needed reforms and adjustments and thus effecting a substantial saving for the taxpayers, who after all are the ones most vitally affected by an election.

At this writing there appears to be nothing of any Importance standing between Mr. Cooper and success at the polls. Onio should not regret the day it elects appears to have begun in Latin MSS about the 11th

Civic Music Concerts

The East Liverpool district can count itself fortunate that this winter it will again have opportunity to hear the splendid concerts which will be brought here by the Civic Music association.

There is nothing that can add more to the artistic life of a city than a series of fine musical events. Music has a general appeal that is lacking in the other arts. While there are many who would not walk across a street to see an exhibition of paintings, there are few who do not like to hear good music

Good music is apt to be expensive, just as quality in all its forms is not likely to be cheap. But the Civic Music association which will operate in East Liverpool will have the merit of giving value received.

The Civic Music association is formed of a body of citizens in this community who pay a small yearly mem-

In other cities the Civic Music association has long been operative, always with increasing favor. East Liverpool can pride itself that finally it has approached the matter of providing concerts for the city in a businesslike way, and that music has been placed upon a proper civic basis where all who care to do so may hear the concerts at a price that will be prohibitive to none.

WASHINGTON, D. C., Oct. 12.-There are several parallels between the history of the Democratic party 1844 and 1848 and its career of the present day, a hough in results the likeness does not exist. Its 1844 onvention was deadlocked by the two-thirds rule, as appened in 1912t nd more or less in 1920 and 1924. In 845 the party was split by a dissenting element.

The Whigs were discouraged over Tyler's administration, which had spoiled their victory of 1840. On 1844 hey turned again to Henry Clay, with TheodoreFrelinghuysen for vice president. The Dem-Polk won 15 states, getting 170 electoral votes to 105 for Clay, who thus was the only man before Bryan to lose the presidency in three elections.

Lewis Cass was the Democratic nominee of 1848, while the Whigs took a leaf from the lesson book of 1840, and named a war hero, General Zachary Taylor. The figure of Martin Van Buren and his disaffected New York group remained ominously on the horizon. Van Buren's acceptance of a nomination by a third party, after his career as a Democrat, was interpreted and committed suicide because he by many to indicate his purpose of taking vengeance on wanted to see some other places. the party for its refusal to nominate him in 1844. If that be true, he may be said to have had his revenge, for while he did not carry a single state as the Free Soil candidate, he did divert enough votes in New York to keep that state out of the Democratic column. The on another. election marked a beginning of the belief that it was necessary to win New York to win a presidential election. As a rule this has proved true, although 1916 was a recent exception.

For the first time in the history of the country the popular elections were all held on the same day, in accordance with the law passed three years before. In and friendly gaze and ready answers for all questions Massachusetts the vote was so badly split that no electors were chosen, and the legislature at a later date had to appoint its electoral college.

You can see that the sudden removal of these deposits of fat may result in the dropping or displace-ment of one or more of these organs. Physical disabilities are liable to re-

Because of these facts, I urge you not to resort to violent methods of fat reduction. Correction of manifest errors in eating should not be neglected, of course. But I beg of you not to "take off twenty-five pounds in a month" and similar reductions founded on speedy methods of getting rid of surplus weight. There can be no doubt that over-

ASK BUSINESS INTERESTS TO SUPPORT G. O. P.

Nominee Will Restate Stand on Religious Freedom.

NEW YORK TOPIC

Gov. Smith's State on Oct. 22.

BY WILLIAM K. HUTCHINSON. WASHINGTON, Oct. 12 .- A special appeal to business interests to support the Republican party and a restatement of his declaration on relig ious freedom will feature the address of Herbert Hoover when he invade New York City, the backbone of Gov Al Smith's territory, on Monday, October 22, it was learned at his head-

Hoover will make his appeal to "big business" and "little business" on the three cardinal Republican issues of prosperity, economy and efficiency in government. He will touch upon the record of the Coolidge administration in reducing taxes and in refunding wartime indebtedness. He will stress the danger to business stability in changing governments in the midst of a wave of prosperity. This will be the high light of the address.

Map Itinerary to Coast. The Hoover board of strategy mean while pondered over the selection of an itinerary for the nominee's trip to the coast to vote.

Hoover will leave Washington during the last week of October, although he personally prefers to delay his departure until just a few days before election. His advisers, however, have cause it will occur during the last week of the presidential campaign.

At present, the strategists are considering invitations to have Hoover speak in Indianapolis, Kansas City, or St. Louis, Chicago, Minneapolis, or St. Paul, Denver, Butte, Mont., Ogden, Utah., and either Los Angeles or San

Compares Waterpower Records. was thrown on the Hoover doorstep by Judson King, director of the Na tional Popular Government league and a LaFollette devotee. King is sued a statement comparing the power records of Hoover and Smith

"Hoover has always been against and still is against public ownership and operation; Smith has always been and is for it," said King. "Hoover has always advocated the leasing has always been and is opposed to any leases and says that long leases virtually amount to a gift.

"Hoover is against public genera-

tion and Smith is for it: both would have private companies distribute the would fix the rate to the consumers in the contract.

"The indications are that Smith would have signed the Muscle Shoals bill last June while Hoover would have vetoed it as did Coolidge.'

It was stated on behalf of Hoover that he would not discuss t power issue any further, believing he had stated his position clearly in his announcement last Monday. His advisers, however, declared he was not opposed to government ownership when the site lay upon public lands. They added he did oppose federal operation of a power site because it placed the government in business in competition with its citizens.

How many people you know end their colds with Bayer Aspirin! And how often you've heard of its prompt relief of sore throat or tonsilitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have told you Bayer Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

NEW YORK, Oct. 12.—The Pittsburgh-West Virginia scrap and intersectional contests between southern elevens and Yale, Princeton and Harvard feature tomorrow's football card in the east.

At New Haven the Yale warriors are determined to go marching through Georgia for a flock of touchdowns in revenge for the defeat inflicted by the Georgians last year. But the veteran Georgia eleven, well-schooled in the Rockne attack, boasts a hard-charging line and backs of the first rank in Bull McCary, Dudley and Flash Johnson.

Injuries have lessened Virginia's chances against Princeton. At a se-cret practice session yesterday, Coach Roper sent three new men to the Tiger line and substituted Requardt for Jones at halfback.

FIND RICH MURAL PAINTINGS IN RESTORATION OF OLD CHURCH

MUNICH-Work of restoration of the Cloister church on the Island of Frauenworth in the Chiemsee has brought to light mural paintings right and left from the altar which dates from the beginning of the thirteenth century, when this part of the church was built.

The paintings, which represent symbols of the early Christian church, are comparatively well preserved, the colors being still fairly bright, and the drawing clearly discernible.

Most of the mural decorations from the Roman period were destroyed when the church was rebult a few hundred years later. Parts of these have also been found, but they are so damaged that the original themes

Zenith Automatic Tuning

The most startling revelation since the advent of radio, a device so simple in operation that a child can easily give a full evening radio entertainment, securing your wanted station at will, without any attention or any detail of tuning.

Just press the button, the automatic tuning device does all the work and requires no attention. The device does not interfere with the old fashioned method of tuning, as the dial may be hand operated.

Beautiful Cabinets and Models

The cabinets of any model, are an inspiration. At present there is a strong wave of interest in Italian Renaissance style. But any style or finish is available for any home.

The woods used are genuine American Walnut and the highly figured Maple as shown on the instrument panel adds considerably to the general appearance.

We will be glad to show you any model and give you any information you desire without obligation.

GLASGOW TRUCK DRIVER PUTS BRICKS IN CASES OF RUM FOR U. S.

GLASGOW .- In catching John O'Rourke, a young truck-driver, and having him sentenced to 60 days' imprisonment, the Glasgow police be-Heve they have got to the bottom of a whiskey swindle.

Following many complaints from America that numerous cases of whiskey exported from the Clyde River were found to contain bricks, the police carried out extensive investigations.

A watch was kept on trucks conveying whiskey from the local raiload station to the docks, and O'Rourke was seen to open two cases, renove 24 bottles of whiskey and substitute bricks. His arrest and imprisonment followed.

Madam-Now We Challenge \mathbf{YOU}

to make the test that baffled the Chicago Cubs, Paul Whiteman and his orchestra, the cast of "Manhattan Mary" and many other famous groups

No one else has been able to tell them apart...can YOU?

You have been reading about the Challenge Flavor Test and how it has stumped any number of celebrities. Doubtless you are eager to try it yourself ... on the members of your own family.

Make this test! Learn for yourself, by actual comparison, how perfectly the exquisite, fresh flavor of GOOD LUCK matches the taste of the most expensive spread-for-bread that you can buy.

To enable you to do so, special preparations have been made. Local dealers have laid in extra stocks of fresh GOOD LUCK so that everyone can get it.

In many cities one out of every two housewives uses GOOD LUCK. But unless they see fit to tell, nobody knows it. There's no difference on the table; baking and cooking reveals no difference in flavor. There is none!

The CHALLENGE FLAVOR TEST points for you the way to happier, better housekeeping through GOOD LUCK economy. Make this test on your family-without announcing it. You will be delighted, for GOOD LUCK cannot fail to win. Get a package from your dealer and make this test at once! Then use it regularly.

Who is this? This is El Señor Don Alonzo Esteban Cebolla y Escrombo. What is that? He is a Spanish grandee. He looks very dignified. He is more dignified than that.

How does he keep it up? He doesn't. In secret he munches CHICOS.

Ten to one the Don's dignity would turn to every kind of indignity if he couldn't get Chicos.

No danger of that, however. The gay red-yellow-black Chicos jars are everywhere now.

Next time you spot one, give the man a nickel and help yourself. What you'll learn about peanuts!

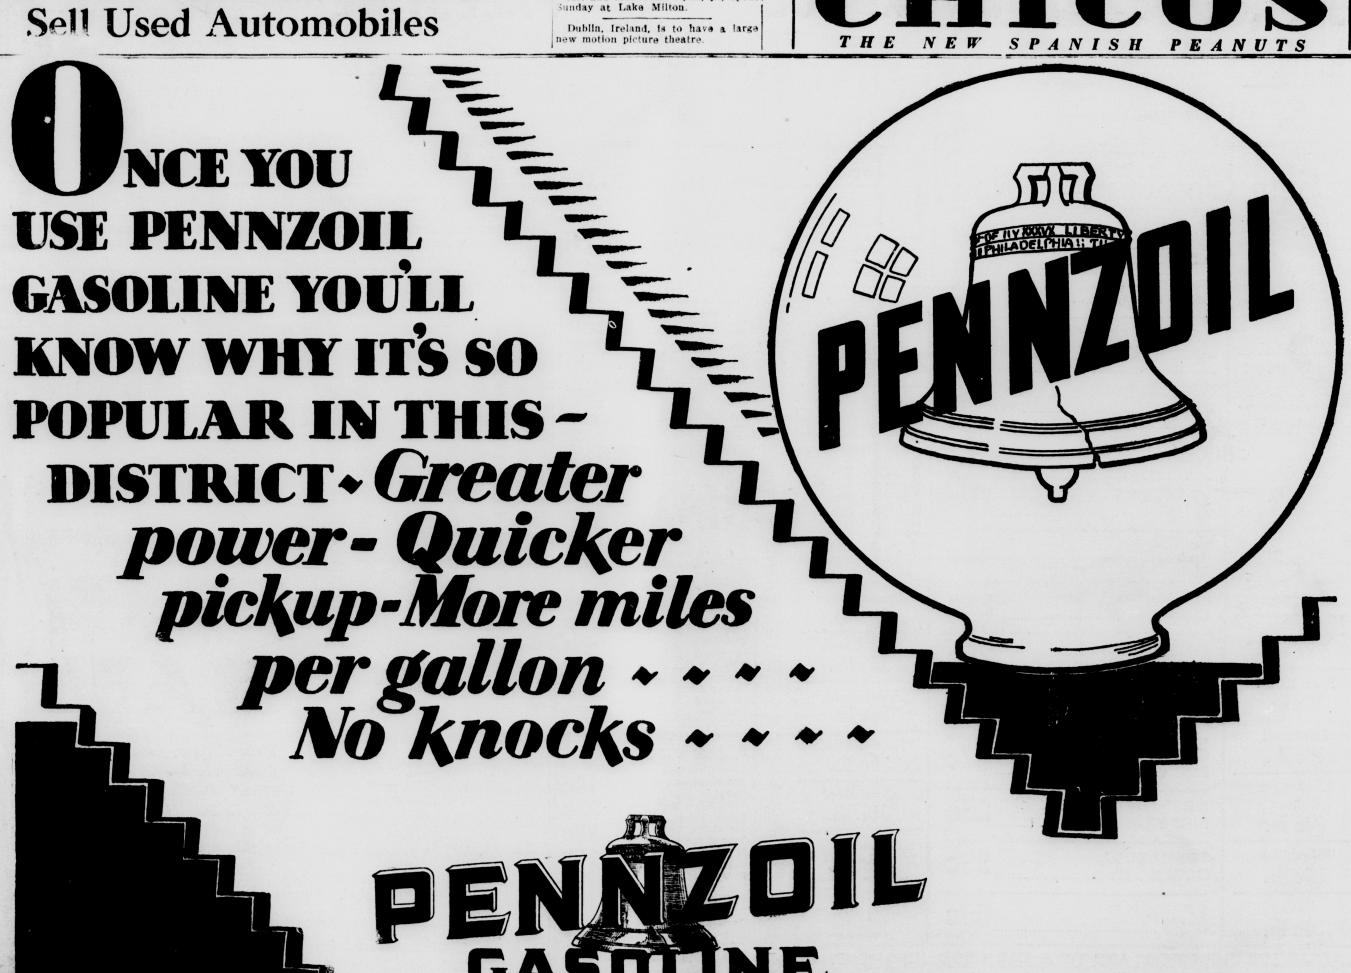

Chicos are choice Spanish peanuts. They're roasted with all the skill of the world's largest roasters of peanuts. They're toasted over an open fire. They're blanched, salted . . .

And the result is a flavor, a crispness, that only Chicos have!

To keep all that flavor, Chicos are sealed in glassine bags. Packed in air-tight boxes. Sold from air-tight jars. You get them fresh-crisp, fragrant with just-toasted goodness.

East Palestine Man to Get Another Hearing October 19,

Judge W. F. Lones in common pleas court has assigned for another hearing the contempt proceedings in the case of the Public Utilities Commision of Ohio against Charles C. Her-

The commission several weeks ago ought an injunction against Herriott from overrating a freight transporta-tion service out of East Palestine. The cord shows that he continued to erve his trade after the order was erved upon him. A few days later n order citing Herriott to appear in ourt and show cause why he should ot be judged in contempt was issued. here was a hearing on the latter isue last Monday and late Thursday fternoon Judge Lones reassigned this se for hearing at 9:30 o'clock Octo-

Attorney L. M. Kyes, of East Pales-tine, counsel for Herriott, explained to the court that he had discussed the o her maiden name Mable A. Han-

divorce against her husband Guy Landis, of East Liverpool, this being he second divorce petition filed by the plaintiff against the defendant during the last year.

Landis is charged with cruel and in human treatment and with having left the plaintiff on July 3 last. The couole were married at Wellsburg, W Va., May 27, 1926. Majella J. Monroe, through her

counsel, Ben L. Bennett of East Liver-pool has filed a divorce petition against her husband, Harry Monroe employed as a barber by his father on South Market street, East Liver-pool. They were married May 7, 1923. In addition to the charge of gross neg-lect of duty, Mrs. Monroe charges that her husband is also guilty of extreme cruelty in that he struck and beat her. In addition to a decree the plaintiff seeks alimony for the support of her children and also the custody of

proposition of injunction with the commission at Columbus, and that the commission, through its couns did not desire an order of injunction. This contention, however, was not proven by witnesses in open court.
